

We need to see your medical card! Here's why.

A VSP® WellVision Exam® combines a comprehensive vision evaluation with a diagnostic medical eye exam.

Vision Evaluation

Your eye exam is an integral piece of your overall health, and typically involves:

- Refractive Exam
- Dilation
- Prescription for Glasses or Contact Lenses

Your VSP eye doctor also provides important input about your overall health, and can diagnose eye conditions like:

- Diabetic Retinopathy
- Cataracts
- Macular Degeneration
- Glaucoma

We may ask you for your medical ID card to bill your medical insurance, in addition to your vision insurance. The care provided by your eye doctor leads to continued quality vision, and can also help identify signs of health conditions—like diabetes—that are often first detected through an eye exam.
